

Metal Finishing Index to Volume 92

January—December 1994

This index covers features and columns appearing in *Metal Finishing* during the calendar year of 1994.

- Acid
 - high consumption in tin-lead fluoborate plating bath, July 52
 - pickling with hydrochloric, July 29
 - preparation of mixtures of, June 93
 - treating burns from contact with hydrofluoric, Nov. 75
- Acronyms
 - definitions of, Jan. 37
- Acrylics and Alkyls
 - review of technical developments in 1993, Feb. 14
- Adhesion
 - interpreting test results for, Nov. 68
- Adsorption
 - system for VOC control using a fluidized bed, June 89
- Aerospace
 - low-VOC dual-cure topcoat for, Mar. 53
- Airborne Emissions
 - measurement of in metal-finishing shops, Nov. 14
- Alaska
 - electroplating shop in, Jan. 47
- Alkyd Coatings
 - inconsistent baking of parts with, July 40
 - production problems caused by low-VOC, July 40
- Alumina
 - mechanical surface treatments with polishing grades of, Apr. 58
- Aluminum
 - adhesion of epoxy primer to conversion coated 2024, Nov. 68
 - anodizing of 7075 T6 alloy, July 52
 - characterization of plated wheels of, Dec. 11
 - electroless nickel plating of a 23-ft diameter mirror of, Dec. 22
 - gold plating on 6061 alloy, Mar. 29
 - in search of a quality finish for anodized, Dec. 33
 - military chemical-resistant powder coatings for, Dec. 37
 - mirror finish for reflectors of, May 17
 - nickel sulfamate plating of, July 52
 - paint failure on extrusions of, May 38
 - painting composite of reinforced fiberglass polyester with, Apr. 33
 - polishing bicycle stems of, Dec. 66
 - tank construction for nitric-phosphoric bright dip for, Sept. 53
 - thermal spraying of, Oct. 33
- Amyl Nitrite
 - as an antidote for cyanide poisoning, Dec. 50
- Anode Bags
 - disposal of used, Sept. 52
- Anodizing
 - accelerated corrosion testing of coatings prepared by, May 39
 - aircraft propellers with chromic acid, May 8 and Sept. 53
 - comparison of sulfuric-boric and chromic acid processes for, Apr. 53 and Sept. 53
 - control of chromic acid, July 9
 - effect of silicate contamination on sealing in, June 95
 - in search of a quality finish in, Dec. 33
- mist suppressants for chromic acid, July 9
- of 7075 T6 aluminum bars, July 52
- of door knobs with a gold color, Jan. 44
- of magnesium alloys, Mar. 39
- process for opaque, Dec. 65
- review of technical developments in 1993, Feb. 31
- Appliance Coating
 - options for, Jan. 53
- Application and Curing Methods, Systems, and Equipment
 - review of technical developments in 1993, Feb. 14
- Arson
 - surviving a disaster due to, Nov. 65
- Atomic Absorption Spectroscopy
 - principles of, Sept. 28
 - sputtering atomizer for analysis of solid samples using, Sept. 29
- Australia
 - metal finishing education and research in, June 67
- Automotive
 - fastener coatings for, Aug. 27
 - phosphating technology 1975-1995, July 13
 - refinishing of an, Aug. 58
- Barrels
 - acid zinc plating of 12L14 steel in, June 63
 - danglers for, June 63
 - portable, Nov. 73
 - tin plating of nickel-plated Kovar leads in, Aug. 22
 - tin-lead plating of axial-lead diodes in, June 63
- Bipolar Effects
 - in wire plating, June 93
 - on axial-lead diodes in tin-lead barrel plating, June 63
- Black Oxide
 - coaters of, Oct. 27
- Blasting
 - as a pretreatment prior to powder coating, Oct. 33
 - lingo for, Apr. 33
 - recycling media in wet, July 34
 - review of technical developments in 1993, Feb. 29
 - to strip paint, June 17
- Brass
 - crack-free rhodium deposition on, Oct. 12
 - spots on plated, Dec. 63
 - stains in lacquer over, Nov. 73
- Brush Plating
 - of nickel-cobalt-silicon carbide composites, Nov. 76
 - principle of, Jan. 15
- Buffing
 - review of technical developments in 1993, Feb. 30
- Cadmium
 - odor from plating bath for, Nov. 79
- Carbonate
 - build up in silver plating baths, Apr. 28
- CARC Coatings
 - repair and refinishing of, Dec. 54
 - two-component epoxy powders for use as, Dec. 37
- Catalyst
 - how to select a, Nov. 30
- Cathodic Breakdown
 - test for accelerated corrosion, May 39
- CFCs
 - phase out of, July 53
- Chain
 - how to plate, Mar. 15
 - on edge conveyors, Sept. 54
- Chemical Machining
 - an overview of, Apr. 18
- China
 - economic development in, Feb. 74
- Chromate
 - alternatives in primers, July 41
 - conversion coatings, overview of, June 71
 - elimination of in primers and topcoats, June 74
 - fading black, Oct. 11
 - poor adhesion of, June 93
 - rinses for phosphate compared to chromium-free rinses, July 42
 - staining of black, Dec. 66
 - substitutes for use as parting agents in electroforming, Oct. 11
- Chromium
 - contamination in nickel plating bath, July 9
 - corrosion of trivalent deposits of, May 17
 - deposition from a trivalent thiocyanate bath, May 11
 - evaporation to minimize waste containing, July 10
 - low environmental risk replacement for, Apr. 13
 - macrocracks of, Sept. 26
 - measurement of airborne emissions of, Nov. 25
 - mist suppressants for, July 9
 - peeling of plate from engine valves, Mar. 28
 - plating of 12L14 steel rolls, Jan. 44
 - plating of 4140 steel forgings, Feb. 23
 - reduction of hexavalent, May 8
 - review of technical developments in 1993, Feb. 33
 - source testing for emissions of from coating operations, Mar. 46
 - substitutes for, Sept. 53
 - trivalent plating of, Sept. 22
 - wear resistance versus electroless nickel, Nov. 79
- Circuit Board
 - gold plating for solderability, Oct. 10
- Clarifiers
 - floating sludge in, Jan. 10
- Clean Air Act
 - an overview of the, Aug. 15
- Cleaning
 - alkaline tank heaters, Jan. 9
 - aqueous, as substitute for organic solvent, July 53
 - high carbon steel, June 93
 - in reel-to-reel plating machines, June 64
 - oil-quenched 4130 steel forgings, Feb. 23
 - review of technical developments in 1993, Feb. 28
 - with a plasma, Mar. 58
- Coating Formulations
 - review of technical developments in 1993, Feb. 13
- Coating Weight

- determination of chromate and zinc, Apr. 28
- Coatings Expert
 - what is required to become a, Sept. 62
- Cobalt
 - composite brush-plated coatings of with nickel and silicon carbide, Nov. 76
 - electrodeposition of, July 52
 - electroless deposition of, Aug. 47
- Color Matching
 - with lead- and chromate-free pigments, Feb. 72
- Composite Electrodeposits
 - characterization of nickel-molybdenum disulfide, July 37
 - polarization behavior of nickel-based, Feb. 49
 - review of technical developments in 1993, Feb. 41
- Composite Materials
 - painting over, Apr. 33
- Conversion Coatings
 - an overview of chromate, June 71
 - review of technical developments in 1993, Feb. 41
- Conveyors
 - for automated finishing systems, Sept. 54
- Copper
 - acid versus cyanide strike prior to silver plating, Apr. 28
 - immersion plating of in electrolytic nickel, Dec. 51
 - immersion plating of in pickling, Apr. 28
 - properties of deposits of on ABS plastics, May 49
 - review of technical developments in electroless plating in 1993, Feb. 39
 - review of technical developments in plating in 1993, Feb. 33
- Curing
 - definition versus drying, May 44
- Current Regulators
 - progress report on, Feb. 25
- Cyanide
 - antidote for poisoning from, Dec. 50
 - formation in an alkaline noncyanide zinc plating bath, June 21
- Dangers
 - for oblique barrels, June 63
- Databases
 - made easy, Apr. 29
- Descaling
 - review of technical developments in 1993, Feb. 29
- Disaster
 - surviving a, Nov. 65
- Dithiocarbamates
 - effect on phosphate coating properties, Jan. 33
- Documents
 - better-looking, July 19
- Dumming
 - to remove iron, Jan. 9
- Dysprosium
 - electrodeposition of, Nov. 70
- Earthquake
 - effect of on plating shops, June 102
- Education
 - importance of in finishing, Oct. 26
- Eductor
 - agitation system using an, Aug. 11
- Effluent Guidelines
 - for metal products and machinery, Aug. 28
- Electrocoating
 - of magnets, Feb. 20
 - primer combined with powder topcoat, Oct. 24
 - review of technical developments in 1993, Feb. 12
- Electrodeposition
 - at the Bureau of Engraving and Printing, Oct. 14
 - of cobalt, July 52
 - of dysprosium from a nonaqueous bath, Nov. 70
 - of iridium, Mar. 28
 - of samarium, Dec. 63
 - review of inorganic "metallic" technical developments in 1993, Feb. 33
- Electrical Contractors
 - dealing with, Nov. 59
- Electrodialysis
 - conservation of gold through, Nov. 43
- Electroforming
 - review of technical developments in 1993, Feb. 40
- Electroplating
 - thermometric analysis for on-line process control in, Sept. 9
- Electroless Nickel
 - annealing behavior of coatings of, June 111
 - bath for bond coat, Mar. 30
 - composite coatings of with Teflon, Dec. 48
 - for drinking water applications, Aug. 22
 - low environmental risk replacement for, Apr. 13
 - painting on, Nov. 68
 - passivation of, Feb. 23
 - plating of a 23-ft diameter mirror, Dec. 22
 - review of technical developments in 1993, Feb. 39
 - specifications for, July 52
 - stripping of, Aug. 22 and Sept. 26
 - wear resistance versus chromium, Nov. 79
- Electroless Plating
 - magic of, May 52
 - of cobalt-phosphorus, Aug. 47
 - review of technical developments in 1993, Feb. 38
- Electropolishing
 - lead-lined tanks for, Aug. 27
 - review of technical developments in 1993, Feb. 31
 - standards for, Jan. 44
- Emetal
 - process for opaque anodizing, Dec. 65
- Epoxy Coatings
 - adhesion of to 2024 aluminum alloy, Nov. 68
 - dirt in clear powder, Jan. 53
 - limitations of zinc-rich, Oct. 34
 - of powder for military chemical-resistant applications, Dec. 37
 - painting over aged-primer, May 37
 - review of technical developments in 1993, Feb. 14
- Etching
 - of aluminum alloys prior to plating, Mar. 30
 - of lead frames with ferric chloride, Jan. 29
 - of titanium prior to platinum plating, June 85
 - review of technical developments in 1993, Feb. 30
- Evaporation
 - to minimize chromium waste, July 10
- Fasteners
 - new trends in coatings for, Aug. 27
- Fiberglass
 - painting over composite of aluminum and, Apr. 33
- Filtration
 - for collection of overspray in painting systems, Aug. 33
 - membranes for recirculation of wastewater, Nov. 20
 - system with agitation to improve quality in finishing, Aug. 11
- Fire
 - in a paint spray booth, Oct. 48
- Fluidized Bed
 - adsorption system for VOC control, June 89
- Fluoride
 - removal from wastewater, Nov. 79
- Formulas
 - for saving time, Nov. 54
- Gasket Coating
 - process for small diameter parts, Apr. 33
- Glass Beads
 - recycling of in wet blast equipment, July 34
- Gold
 - colored coatings, Aug. 26
 - conservation of through electrodialysis, Nov. 43
 - firing paint, Dec. 65
 - plating of circuit boards, Oct. 10
 - plating of watch cases and bands, Jan. 44
 - plating on aluminum alloy components for space applications, Mar. 29
 - purifying a contaminated plating bath of, Dec. 65
 - review of technical developments in 1993, Feb. 39
 - simulated finish for, Sept. 26
- Hong Kong
 - economic relationship to China, Feb. 74 and June 77
 - effect of banning of nickel plate in, June 77
- Hot-Dip Coatings
 - review of technical developments in 1993, Feb. 42
 - thickness measurements of, Apr. 48
- Hull Cell
 - volume of, Dec. 65
- Immersion Plating
 - of copper from pickling, Apr. 28
 - review of technical developments in 1993, Feb. 42
- Impedance Spectroscopy
 - evaluation of phosphate coatings by, Sept. 33
- Initials
 - dictionary of, Jan. 37
- Interpenetrating Polymer Network
 - low-VOC aerospace coating with, Mar. 53
- Iridium
 - electrodeposition of, Mar. 28
- Iron
 - determination of in passivating solution, Mar. 28
- ISO 9000
 - applicability to plating shops, Dec. 51
 - key elements of, Sept. 47; Oct. 50; Nov. 61; and Dec. 18
- Korea
 - importance of education and training for, Oct. 26
- Laser
 - enhanced plating with a, Jan. 14
 - focusing to improve X-ray measurements, Jan. 49
- Lead
 - elimination from primers and topcoats, June 74
 - review of technical developments in 1993, Feb. 35
- Lead Frames
 - fabrication of fine-pitch, Jan. 29
 - soak cleaning of, June 64
- Lighting
 - intensity, Feb. 69
- Limewater
 - for treatment of hydrofluoric acid burns, Nov. 75

- Low-VOC Coatings**
 -dual-cure aerospace topcoat, Mar. 53
 -production problems with alkyd, July 40
 -reducing emissions with, May 45
 -waterborne versus solvent-borne, Aug. 45
- Masking**
 -for selective plating, Jan. 13
- Mass Finishing**
 -pollution prevention in, Nov. 14
 -review of technical developments in 1993, Feb. 31
- Material Safety Data Sheets**
 -differences between vendor information and real life experience in, June 17
 -interpreting information in, June 73
- Mechanical Plating**
 -review of technical developments in 1993, Feb. 41
- Mil**
 -origin of the term, Oct. 11
- Mist Suppressants**
 -for chromic acid solutions, July 9
- Molybdenum Disulfide**
 -composite electrodeposits with nickel, July 37
- Nickel**
 -alloy with tungsten and boron to replace chromium and electroless nickel, Apr. 13
 -blistering and peeling of on brazed stainless steel, Sept. 26
 -can Pacific Rim countries survive without plating of, June 77
 -chromium contamination in plating bath of, July 9
 -composite brush-plated coatings of with cobalt and silicon carbide, Nov. 76
 -composite electrodeposits with molybdenum disulfide, July 37
 -dumpling to remove iron, Jan. 9
 -immersion copper on electrolytic, Dec. 51
 -pitting of plated wire of, Nov. 79
 -plating of aluminum wheels, Dec. 11
 -polarization behavior of electrocomposites, Feb. 49
 -review of technical developments in electroless plating in 1993, Feb. 39
 -review of technical developments in plating in 1993, Feb. 34
 -soldering pinch racks for, May 9
 -sulfamate plate on aluminum, July 52
- Nitric Acid**
 -corrosion-resistant coating for, Feb. 70
 -determining concentration of, Jan. 44
 -preparing mixtures of, June 93
- Nonconductors**
 -metallizing of, Aug. 22
- Oven**
 -is cause for inconsistent baking of parts, July 40
- Overbaking**
 -problem with, Mar. 52
- Overspray**
 -selecting the best route to collection of, Aug. 33
- Pacific Rim**
 -can countries in survive without nickel, June 77
- Paint Stripping**
 -review of technical developments in 1993, Feb. 17
- Palladium**
 -recovery from plating of plastics, Jan. 44
- Passivation**
 -green smut formation on stainless steel during, Oct. 10
 -of electroless nickel, Feb. 23
- solutions for use as parting agents in electroforming, Oct. 11
- Permits**
 -dealing with new, Nov. 47
 -for spray booths, May 44
 -implementation of Title V, July 50
 -photochemical reactivity and VOCs regarding, Apr. 20 and June 73
 -unfair treatment regarding, Feb. 72
- Phosphate Coatings**
 -alternatives to, Mar. 52
 -effect of dithiocarbamates on, Jan. 33
 -environmental considerations for iron and zinc, Sept. 44
 -evaluation of by electrochemical impedance spectroscopy, Sept. 33
 -technology for the automotive industry, July 13
 -wet adhesion of, Jan. 34
 -yellow-colored, Mar. 52
- Photochemical Reactivity**
 -of VOCs, Apr. 20
- Photoetching**
 -of fine-pitch lead frames, Jan. 29
- Pickling**
 -copper immersion deposits in, Apr. 28
 -review of technical developments in 1993, Feb. 29
 -study to model dissolution kinetics in, Feb. 60
 -with hydrochloric acid prior to zinc plating, July 29
- Pitted Parts**
 -due to tiny bubbles, Feb. 23
- Plant Closing**
 -guidelines for, Mar. 56
- Plasma Cleaners**
 -an overview of, Mar. 58
- Plating Preparation Cycles**
 -review of technical developments in 1993, Feb. 30
- Platinum**
 -direct plating of on titanium substrates, June 85
- Polishing**
 -aluminum bicycle stems, Dec. 66
 -buff finishes for stainless steel, July 52
 -of a 23-ft diameter aluminum mirror, Dec. 25
 -review of technical developments in 1993, Feb. 30
 -surface treatments with alumina media, Apr. 58
- Pollution Prevention**
 -in mass-finishing operations, Nov. 14
- Polyester Coatings**
 -review of technical developments in 1993, Feb. 14
- Polyisocyanates**
 -coating performance of, Apr. 24
- Polyurethane Coatings**
 -for high-impact resistance, Aug. 56
 -for metal substrates, Apr. 22
 -new technology speeds curing of, May 33
 -reactive moisture control additives for, Dec. 26 and 31
 -refinishing over old topcoat, May 37
 -review of technical developments in 1993, Feb. 14
- Post Separation**
 -in printed circuit board manufacture, Mar. 14
- Powder Coating**
 -acrylic topcoat, Oct. 24
 -determining moisture content of a, June 17
 -difference in electrostatic guns for, Dec. 54
 -high flow epoxy/polyester hybrid, Oct. 8
 -how best to cure a, July 40
 -military chemical-resistant, Dec. 37
- of lighting fixtures, Oct. 23
 -particles of dirt in a, Jan. 53
 -protection of steel for aggressive environments, Oct. 33
 -review of technical developments in 1993, Feb. 10
 -show expands to meet industry needs, Oct. 36
 -technology key to continued growth of, Oct. 8
 -topcoat combined with electrocoating primer, Oct. 23
 -urethanes for, Apr. 25
- Precious Metals**
 -review of technical developments in 1993, Feb. 36
- Pretreatment**
 -alternatives to phosphate, Mar. 53
 -review of organic finishing technical developments in 1993, Feb. 9
- Primers**
 -chromate alternatives in primers, July 41
 -chromate elimination in, June 74
 -for painting on electroless nickel, Nov. 68
 -limitations of zinc-rich epoxy, Oct. 35
 -painting over aged epoxy, May 37
 -refinishing old coatings of air-dry primer, May 37
- Product Showcase**
 -barrel plating, Oct. 17
 -conveyors/hoists, Dec. 40
 -on-line monitoring and control, May 29
 -racks and baskets, Feb. 53
 -sludge handling equipment, Jan. 21
 -spray guns, Aug. 37
 -strippers, Sept. 39
 -tanks and liners, Apr. 39
 -testing color and gloss, Feb. 9
 -thickness testers, July 23
- Quality Control**
 -dealing with change in, Apr. 34
 -defining a standard for, May 19
 -earning employee trust to ensure, June 106
 -inference, the logic of statistics in, Feb. 56
 -inspection planning for, Oct. 53
 -key elements of ISO 9000 for, Sept. 47; Oct. 50; Nov. 61; and Dec. 18
 -management by disaster in, Aug. 42
 -management of processes in, Nov. 50
 -strategies in, Dec. 44
- Rags**
 -dealing with solvent-laden, Oct. 29 and Dec. 52
- Rectifiers**
 -current density control for, Mar. 14
 -for continuous plating lines, Feb. 25
- Refinishing**
 -of an automobile, Aug. 58
 -over old coatings of air-dry primer and polyurethane topcoat, May 37
- Rejected Parts**
 -reasons for, June 81
- Repair**
 -of coated surfaces, Oct. 48
- Rhodium**
 -crack-free deposition of on brass, Oct. 12
- Rinses**
 -improved corrosion resistance using chromium-free, July 42 and July 46
- Risk Management**
 -EPA's program regulations for, Mar. 34
- Rust**
 -application of inhibitors for Sept. 26
 -converter for steel, Aug. 57
- Safety**
 -management of, Aug. 52
- Saliva**

- artificial formula for, Dec. 63
- Salt Spray Testing**
 - alternatives for, May 39
 - determining pits in, Nov. 74
- Samarium**
 - oxalate bath for deposition of, Dec. 63
- Selective Plating**
 - of connectors, Jan. 13
- Shot Peening**
 - review of technical developments in 1993, Feb. 29
- Silicate**
 - contamination, effect of on anodizing seals, June 95
- Silk Screening**
 - thinning of ink for, Dec. 52
- Silver**
 - copper strike prior to plating of, Apr. 28
 - noncyanide baths for plating of, May 17
 - obtaining smoother deposit of, Aug. 22
- Solvent-Borne Coatings**
 - converting to waterborne coatings from, Oct. 29
 - versus waterborne coatings, Aug. 45
- Specifications**
 - for electroless nickel plating, July 52
- Spot Plating**
 - principle of, Jan. 14
- Spotting Out**
 - stains in lacquer over brass plate, Nov. 73
 - versus spotting in, Dec. 63
- Spray Painting**
 - cleaning equipment for waterborne, Oct. 29
 - fire in a booth for, Oct. 48
 - hot enamel finishes, May 37
 - selecting equipment for, Oct. 49
 - selecting the best route to proper overspray collection in, Aug. 33
 - source testing for chromium emissions from, Mar. 46
 - with high-volume low-pressure equipment, Aug. 56
- Spreadsheets**
 - made easy, Feb. 66
- Stainless Steel**
 - blistering and peeling of brazed, Sept. 26
 - determining iron in passivating solution for, Mar. 28
 - green smut in passivation of, Oct. 10
 - plating on, Jan. 10
 - polishing of, July 52
 - soldering of, May 9
 - waste minimization in pickling of, Feb. 60
- Standard**
 - what is a, May 19
- Steel**
 - acid zinc barrel plating of 12L14, June 63
 - flaking zinc plate on 12L14, June 93
 - plating forgings of 4140, Feb. 23
 - plating of high carbon 1050, June 93
 - plating rolls of 12L14, Jan. 44
- Strip and Selective Plating**
 - review of technical developments in 1993, Feb. 42
- Stripping**
 - less hazardous, June 17
 - of electroless nickel from lead frames, Sept. 26
 - of electroless nickel from printed circuits, Aug. 22
 - review of inorganic "metallic" developments in 1993, Feb. 30
 - review of organic technical developments in 1993, Feb. 17
 - varnish from racks, June 17
- SurFin '94**
 - preview of technical program and exhibits for, June 25
- Surplus Paint**
 - handling of, Dec. 52
- Tank**
 - construction for nitric-phosphoric bright dip, Sept. 53
 - fire-retardant polypropylene, Oct. 11
 - hole in PVC-lined, Aug. 27
 - lead-lined for electropolishing, Aug. 22
 - material specifications for a, Mar. 14
- Technical Developments**
 - inorganic "metallic" finishes, processes, and equipment in 1993, Feb. 27
 - organic coatings, processes, and equipment in 1993, Feb. 9
- Testing**
 - cathodic breakdown, May 39
 - deposit hardness, Nov. 79
 - determining pits in salt spray, Nov. 74
 - for airborne contaminants in metal-finishing shops, Nov. 14
 - for chromium emissions from surface coating operations, Mar. 46
 - interpreting the results of adhesion, Nov. 68
 - receiving and product inspection, Nov. 61
 - review of inorganic "metallic" technical developments in 1993, Feb. 43
 - review of organic technical developments in 1993, Feb. 17
 - volume of Hull cell, Dec. 63
 - with artificial saliva, Dec. 63
- Thermometric Analysis**
 - for on-line process control, Sept. 9
- Thickness**
 - magnetic gauges and standards for testing of, Mar. 17 and Apr. 44
 - testing of gold and nickel by X-ray fluorescence, Jan. 49
- Threaded Holes**
 - plugs for, Jan. 9
- Tin**
 - cost-effective plating of, Aug. 22
 - poor coverage in barrel plating of, Aug. 22
 - review of technical developments in 1993, Feb. 35
- Tin-Lead**
 - barrel plating of axial-lead diodes, June 63
 - bipolarity in plating of, June 93
 - high acid consumption in fluoborate bath for plating of, July 52
 - review of technical developments in 1993, Feb. 35
- Titanium**
 - direct platinum plating on, June 85
 - plating of chromium on 6Al-4V alloy of, June 93
- Titanium-Cadmium**
 - questions on plating of, Sept. 26
- Topcoats**
 - elimination of chromates in, June 74
 - low-VOC dual-cure aerospace, Mar. 53
 - refinishing over old polyurethane, May 37
- Touch-Up**
 - problems with, Oct. 48
 - versus repair, Feb. 72
- Tube**
 - overview of manufacture of, July 48
- Tungsten**
 - alloy with nickel and boron to replace chromium and electroless nickel, Apr. 13
- Ultraviolet and Electron-Beam Cured Coatings**
 - review of technical developments in 1993, Feb. 12
- Vacuum Coating**
 - review of technical developments in 1993, Feb. 37
 - systems process control, May 46
- VOC**
 - content of isobutyl amine, May 44
 - emission control system for using a fluidized bed, June 89
 - how to select a catalyst for control of emissions of, Nov. 30
- Volume Solids**
 - calculating, May 44
- Wash Primer**
 - for painting on electroless nickel, Nov. 68
- Waste Minimization**
 - in mass-finishing operations, Nov. 14
 - seven critical steps for, Mar. 9
- Waste Reduction**
 - conservation of gold through electrodialysis, Nov. 43
 - of rinse water at the source, May 23
 - through improved operating practices, May 24
 - through material substitution, May 25
- Waste Treatment**
 - controller settings for cyanide chlorination in, Nov. 79
 - extrapolation of the chemical treatment of solvent paints to waterborne coatings, Nov. 34

The Chemical Analysis of Electroplating Solutions
by T.H. Irvine 182 pages \$50.50

Chapters in this work are divided into groups in accordance with the periodic table of elements. Procedures are traditional, but theoretical aspects and other information are also provided. Anyone who studies this book carefully will derive a helpful understanding of what he or she is doing so that unexpected results can be searched out for causes and corrected.

Send Orders to: METAL FINISHING, Three University Plaza, Hackensack, NJ 07601. For faster service, call (201) 487-3700 or FAX your order to (201) 487-3705. All book orders must be prepaid. NY, NJ and MA residents add appropriate sales tax. Please include \$5.00 shipping and handling for delivery of each book via UPS to addresses in the U.S.; \$8.00 for each book for Air Parcel Post shipment to Canada; and \$20.00 for each book for Air Parcel Post shipment to all other countries.

Hydra Conveyor Lubricants

**Digilube dry film
lubricant is water-based,
environmentally safe.**

- Approved by major industrial paint manufacturers.
- Compatible with most water-based synthetic paints.

Digilube offers lubrication and cleaning equipment for conveyors of all types.
